03/31/21	Cyber Ninjas, Inc Statement of Work	SA001 - 011
09/30/21	Revised Privilege Log	SA012 - 245
10/14/21	Minute Entry Order	SA246 - 256

# Statement of Work

This Statement of Work (the "Statement of Work") is effective as of as of the 31 day of March, 2021 (the "Effective Date"), between Cyber Ninjas Inc., a Florida Corporation, ("Contractor"), and Arizona State Senate ("Client"), and is deemed to be incorporated into that certain Master Service Agreement dated March 31, 2021 (the "Master Agreement") by and between Contractor and Client (collectively, this Statement of Work and the Master Agreement are referred to as the "Agreement").

## 1 WHY CYBER NINJAS

---

Cyber Ninjas is a cyber security company with a focus on application security and ethical hacking. We perform work across the financial services and government sectors. Our expertise allows us to both understand complex technology systems, as well as understand how a malicious attacker could potentially abuse those systems to meet his or her own agenda. This allows us to effectively enumerate the ways a system could be exploited, and with our partners to fully review if that scenario did in fact occur. This is very different from the compliance focused way that election systems are typically evaluated.

Both our company and our partners have extensive experience working specifically with Dominion Voting Systems. In addition, our subcontractors and partners are adept at digital forensic acquisition, and on implementing ballot hand-counting procedures. Two of our team members authored a hand-count ballot process that has been utilized in audits in two states; and has further been perfected for transparency and consistency. This combination of skills, abilities, and experience is what uniquely qualifies our team for the outlined work.

## 2 OUR TEAM

---

Cyber Ninjas will serve as the central point-of-contact and organizer of all work conducted over the course of this agreement. However, there are different teams involved in each phase of the outlined work. Each of these teams have specialities and experience within the outlined areas of their coverage. This expertise is highlighted below.

### 2.1 Registration and Votes Cast Team

The Registration and Votes Cast Team has worked together with a number of individuals to perform non-partisan canvassing within Arizona related to the 2020 General election in order to statistically identify voter registrations that did not make sense, and then knock on doors to confirm if valid voters actually lived at the stated address. This brought forth a number of significant anomalies suggesting significant problems in the voter rolls.

They will be continuing this work as part of this effort to validate that individuals that show as having voted in the 2020 General election match those individuals who believe they have cast a vote.

## 2.2 Vote Count & Tally Team - Wake Technology Services

Members of the Wake Technology Services group have performed hand-count audits in Fulton County, PA and in New Mexico as part of the 2020 General Election cycle. In addition, team members have been involved in investigating election fraud issues, dating back to 1994. In that particular case in 1994, this team member worked closed with the FBI during the investigation.

As part of these audits in 2020, the Wake Technology Services team has developed an in-depth counting process that reduces opportunities for errors. This counting process has been expanded to make it more robust, and more transparent. As a result, they will be leading all ballot hand-counting processes.

## 2.3 Electronic Voting System Team – CyFIR, Digital Discovery & Cyber Ninjas, Analysts

Digital Forensic Acquisition will be performed either by CyFIR or Digital Forensics, and the analysis work will be performed by Cyber Ninjas, CyFIR and a number of additional analysts, the identities and qualifications of whom shall be made available to Client upon request.

CyFIR is a digital security and forensics company and a subcontractor on the contract for DHS's Hunt and Incident Response Team (HIRT). As specialists for DHS, they are familiar with responding to nation-state cyber activity including Advanced Persistent Threats (APT).

# 3 GENERAL PROVISIONS

---

3.1 Introduction. The terms and conditions that are specific to this Statement of Work are set forth herein. Any terms and conditions that deviate from or conflict with the Master Agreement are set forth in the "Deviations from Terms of the Master Agreement" Schedule hereto. In the event of a conflict between the provisions of this Statement of Work and the Master Agreement, the provisions of Section 2.34 of the Master Agreement shall control such conflict.

3.2 Services. Contractor will provide to the Client the Services in accordance with the Master Agreement (including the Exhibits thereto) and this Statement of Work (including the Schedules hereto). The scope and composition of the Services and the responsibilities of the Parties with respect to the Services described in this Statement of Work are defined in the Master Agreement, this Statement of Work, and any Schedules attached hereto.

# 4 SCOPE & SERVICES DESCRIPTION

---

This Statement of Work outlines the proposed methodology and scope for a full and complete audit of 100% of the votes cast within the 2020 November General Election within Maricopa County, Arizona. This audit will attempt to validate every area of the voting process to ensure the integrity of the vote. This includes auditing the registration and votes cast, the vote counts and tallies, the electronic voting system, as well as auditing the reported results. The final report will attempt to outline all the facts found throughout the investigation and attempt to represent those facts in an unbiased and non-partisan way. The final report will not include factual statements unless the statements can be readily substantiated with evidence, and such substantiation is cited, described, or appended to the report as appropriate.

The following sub-sections provides additional details of what will be conducted at each stage of the audit.

## 4.1 Registration and Votes Cast Phase

---

During the Registration and Votes Cast Phase, it will be validated that Maricopa County properly registers who voted during an election, and that this system properly prevents duplicate voting. This will be performed on a minimum of three precincts.

Proposed scope of work:

- Review of Arizona's SiteBook system for checking in and tracking voters;
- Complete audit of a minimum of 3 precincts, based on statistical anomalies and precinct size;
- Analysis of existing research and data validating the legitimacy of voter rolls; and/or
- Comparing results against known lists of invalid voters (e.g. deceased voters, non-citizens, etc.).

This phase may help detect:

- Problems that could result in voters being able to vote more than once;
- Voters that voted but do not show in the list of those who voted;
- Voters who likely did not vote but showed as having voted;
- Potential invalid voters who cast a vote in the 2020 general election; and/or
- Inconsistencies among vote tallies between the various phases.

This phase is NOT expected to detect:

- Individual ballots that are either wrong and/or invalid.

Anticipated artifacts for transparency and/or validation of results for the public:

- Final report outlining the discovered results; and/or
- Redacted spreadsheet of a list of those who voted in the target precincts.

## 4.2 Vote Count & Tally Phase

---

During the Vote Count & Tally Phase, the counts and tallies for votes and the voting machines will be validated. This will include a hand-tally and examination of every paper ballot.

Proposed scope of work:

- Physically inspecting and hand-counting of ballots in Maricopa County;
- Counting of the total number of provisional ballots;
- Capture of video footage of the hand-counting of ballots; and/or
- Scanning of ballots in Maricopa County
  - NOTE: Provisional ballots which still have signatures attached to them will be counted to be sure they match the expected numbers but will not be scanned nor will the contents be visible in video.

This phase may help detect:

- Counts that do not match the expected results;
- Ballots that are visually different and possibly fraudulent; and/or
- Inconsistencies among vote tallies between the various phases.

This phase is NOT expected to detect:

- Destroyed or otherwise missing ballots

Anticipated artifacts for transparency and/or validation of results for the public:

- Final report outlining the discovered results;
- Unedited camera footage of the counting of every ballot, provided that, absent express judicial approval, any such footage cannot be streamed, recorded or broadcast in such a manner that the candidate or ballot proposition selections on each ballot is visible or discernible; and/or
- Ballot images of every scanned ballot, provided that, absent express judicial approval, any such images cannot be released or published to any third party.

### 4.3 Electronic Voting System Phase

---

During the Electronic Voting System Phase the results from the electronic voting machines will be validated to confirm they were not tampered with. This will be done on all systems related to SiteBook with Maricopa data, as well as all Election Management System related machines besides the Ballot Marking Devices (BMD)'s utilized for accessibility.

Proposed scope of work:

- Forensic Images of Arizona's SiteBook System including the database server, as well as any client machines associated with Maricopa County;
- Forensic images captured of the Election Management System main server, adjudication machines, and other systems related to the Election Management System;
- Forensic images of all Compact Flash, USB drives, and related media;
- Inspection to identify usage of cellular modems, Wi-Fi cards, or other technologies that could be utilized to connect systems to the internet or wider-area-network;
- Review of the Tabulator Paper Tally print-outs;
- Reviewing the exports from the EMS for "Audit File", "Audit Images" and "CVR";
- Reviewing ballot images captured by the tabulators
- Reviewing forensic images for possible altering of results or other issues; and/or
- Reviewing of tabulator and other logs.

This phase may help detect:

- Problems where the tabulator incorrectly tabulated results;
- Problems where the tabulator rejected results;
- Issues where results may have been manipulated in the software;
- Issues with the improper adjudication of ballots; and/or
- Inconsistencies among vote tallies between the various phases.

Anticipated artifacts for transparency and/or validation of results for the public:

- Final report outlining the discovered results;
- Ballot images and AuditMark images showing how the tabulator interpreted the ballot for counting, provided that, absent express judicial approval, such images cannot be released or published to any third party;
- CVR Report as generated from the software; and/or
- Log Files from the Tabulators (Redacted if Dominion Desires).

## 4.4 Reported Results Phase

---

During the Reported Results Phase, results from all phases are compared against those expected results and those results which were publicly totalled as the official results to identify any inconsistencies.

Proposed scope of work:

- Results from various phases will be reviewed and tallied; and
- Results will be compared against the official, certified results.

This phase may help detect:

- Issues where result tallies were not properly transmitted to the official results; and/or
- Inconsistencies among vote tallies between the various phases.

Anticipated artifacts for transparency and/or validation of results for the public:

- Final report outlining the discovered results

## 5 METHODOLOGY

---

The following section outlines the proposed methodology utilized in the various phases of the audit. When appropriate, these sections may reference more detailed procedures. Such procedures are considered proprietary and the intellectual property of Cyber Ninjas, our subcontractors or our Partners and can be made available for review but are not explicitly part of this agreement.

### 5.1 Registration and Votes Cast Phase

---

During the “Registration and Votes Cast Phase”, Contractor may utilize precincts that have a high number of anomalies based on publicly available voting data and data from prior canvassing efforts to select a minimum of three precincts to conduct an audit of voting history related to all members of the voter rolls. A combination of phone calls and physical canvassing may be utilized to collect information of whether the individual voted in the election. No voters will be asked to identify any candidate(s) for whom s/he voted. This data will then be compared with data provided from Maricopa County Board of Elections.

### 5.2 Vote Count & Tally Phase

---

The goal of the “Vote Count & Tally Phase” is to attempt to, in a transparent and consistent manner, count all ballots to determine the accuracy of all federal races, and to identify any ballots that are suspicious and potentially counterfeit. Ballots will be counted in a manner designed to be accurate, all actions are transparent, and the chain of custody is maintained.

#### 5.2.1 Counting Personnel

Non-partisan counters will be utilized that are drawn from a pool of primarily former law enforcement, veterans, and retired individuals. These individuals will undergo background checks and will be validated to not have worked for any political campaigns nor having worked for any vendor involved in the voting process. These individuals will also be prevented from bringing any objects other than clothing items worn on their persons into the counting area or taking any objects out of the counting area.

### 5.2.2 Accurate Counting

Counting will be done in groups with three individuals independently counting each batch of ballots, and an individual supervising the table. All counts will be marked on a sheet of paper as they are tallied. If, at the end of the hand count, the discrepancies between counting personnel aggregate to a number that is greater than the margin separating the first and second place candidates for any audited office, the ballots with discrepant total from the Contractor's counting personnel will be re-reviewed until the aggregate discrepancies within the hand count are less than the margin separating the first and second place candidates.

### 5.2.3 Transparent Counting

All activity in the counting facility will be videotaped 24 hours a day, from the time that Maricopa County delivers ballots and other materials until the time that the hand count is complete and all materials have been returned to the custody of Maricopa County. Such videotaping shall include 24-hour video monitoring of all entrances and exits, as well as activity at the counting tables.

### 5.2.4 Chain of Custody

All movement with ballots, cutting of seals, application of seals, and similar actions will be appropriately documented and logged, as well as captured under video to be sure the custody of ballots is maintained at all times. Access to the counting area will be restricted to duly authorized and credentialed individuals who have passed a comprehensive background check, with mandatory security searches and ingress/egress logs whenever entering or exiting the counting area.

## 5.3 Electronic Voting System Phase

---

The proposed scope of the "Electronic Voting System Phase" is to confirm that the system accurately tallied and reported the votes as they were entered into the system and that remote access was not possible. All systems related to the voting will be forensically imaged, these machines will be booted up and checked for wireless signal usage, and the images will be reviewed to determine the accuracy of results and any indication of tampering.

### 5.3.1 Forensic Images

A digital forensics capture team will forensically capture all data on in-scope systems, utilizing industry best practices. This will create a digital copy of every single machine, Compact Flash Card, and USB drive in scope without altering the contents of the machines. Chain-of-custody documentation will be created to preserve these images in a manner sufficient to be utilized in a court-of-law.

### 5.3.2 Physical Analysis

The Election Management System equipment will be turned on and scanned with a wireless spectrum analysis tool to determine if the device is emitting any signals consistent with a known wireless frequency such as cellular, Bluetooth, WiFi or similar. Devices that show signs of emitting signals will be flagged and documented, and when possible without damaging the equipment; they will be physically inspected to determine the source of any detected signals.

### 5.3.3 Digital Analysis

The forensic images will be reviewed to validate reported totals from the tabulators, results stored within the Election Management System (EMS) Results Tally and Reporting software. These will be compared against the tabulator print-outs; and the machine will be checked for physical or digital tampering and any known ways of remote access to the machines.

#### 5.3.4 Opportunity for Observation

Before commencing the imaging or analysis steps described above (except for the Digital Analysis process), the Contractor will work with Maricopa County to provide at least five (5) days advance notice to any vendors of Maricopa County whose products will be the subject of imaging, inspection, or analysis. Such vendors will be permitted the opportunity to attend and observe the Contractor's imaging or inspection of the vendors' products. The vendor will not be allowed to be present for the analysis of the captured images. Such vendors are third party beneficiaries of this provision and will have standing to challenge and secure injunctive relief against any denial of their right to observe the inspection of their products.

### 5.4 Reported Results Phase

---

During the Reported Results phase, results from all phases are compared to find differences between tallies or other anomalies. These results are then compared against data at the Secretary of State and Maricopa Board of Elections layers. Any inconsistencies will be reported and highlighted.

## 6 RESPONSIBILITIES

---

The following section outlines the key responsibilities for the proper execution of the Agreement between the Contractor and the Client for all outlined work within the scope.

### 6.1 Registration and Votes Cast Phase

---

#### Contractor Responsibilities

- Provide the proper personnel to conduct the analysis of the data required to execute the scope of this phase.

#### Client Responsibilities

- Arrange for a database export of SiteBook to be provided to the Client which includes all fields normally found in a publicly requested copy of the voter rolls, in addition to any other non-sensitive fields related to the data such as modifications or other time-stamps, voter history, last user edited, IP address of edit; or anything similar.

### 6.2 Vote Count & Tally Phase

---

#### Contractor Responsibilities

- Provide the proper personnel and equipment to execute all aspects of the phase including scanning, counting, the setup of equipment for recording of the counting, and the supervision of activities.
- Ensure that all onsite personnel follow any in-place COVID requirements.

#### Client Responsibilities

- Provide security of the building during the course of the engagement. This includes having sufficient security to prevent access to the building 24/7 during the entire time, including ensuring that safe working conditions can exist during the entirety of the audit;
- Provide electricity and access to the facilities and tables necessary for up to 120 people at a time following any current COVID requirements. This is estimated to be about 7,200 square feet;
- Provide access to all paper ballots from the November 2020 General Election within Maricopa County. This includes early voting, election day ballots, provisional ballots, spoiled ballots, printed unused ballots and any other ballot categories that are part of the 2020 General Election. For all ballots this should include the original hard copies of the ballots that were electronically adjudicated ballots.
- Provide a mechanism to allow for the proper equipment to be brought into the facility where the counting will take place.

- Full chain of custody documentation for all ballots from the point they were cast to the point where we gain access to the ballots, to the extent such documentation is in Client's possession.
- Purchase orders for all purchased ballots, or ballot paper, including counts of each, as well as delivery receipts of the quantity of ballots received, to the extent such documentation is in Client's possession.
- Full counts from any ballots printed on demand, as well as the location for which they were printed, to the extent such documentation is in Client's possession.
- Provide wired access to internet to be able to stream the counting video capture, provided that any such video footage must be streamed, recorded or broadcast in such a manner that the candidate or ballot proposition selections on each ballot shall not be visible or discernible.

## 6.3 Electronic Voting System Phase

---

### Contractor Responsibilities

- Provide the proper personnel to execute all aspects of the phase including the capture of forensic digital images of all systems related to the Election Management System; and
- Ensure that all onsite personnel during the forensic capture follow any in-place COVID requirements.

### Client Responsibilities

- Provide physical access to the EMS Server, Adjudication machines, ImageCast Central, ImageCast Precinct, ImageCast Ballot Marking Devices, SiteBook, NOVUS systems, and any other Election Management System equipment or systems utilized in the November 2020 General Election to the forensic capture team;
- Provide access to Compact Flash Cards, USB Drives, and any other media utilized in the November 2020 General Election for the forensic capture team to image;
- Provide electricity and sufficient access to the machines in scope in order to provide a team of up to 15 forensic capture individuals to work and boot up the systems;
- Provide any needed credentials for decrypting media, decrypting computer hard drives, the EMS machines, or other systems that may be required for a proper forensic capture of the machines;
- Provide the output of the "Audit File," "Audit Images," and CVR exports from the Dominion machines which includes all ballot images and AuditMark images of every ballot processed by the machines; and
  - NOTE: The above may be able to be captured from the forensic images; but Maricopa County assistance could be needed in identifying where the AuditMark files are located.
- Provide any needed technical assistance allowing all the above to be successfully captured.

## 6.4 Reported Results Phase

---

### Contractor Responsibilities

- Provide the proper personnel to conduct the analysis of the data required to execute the scope of this phase.

### Client Responsibilities

- Provide the official results per precinct for all counts associated with the November 2020 General Election.

## **7 DELIVERABLE MATERIALS**

---

The primary deliverable for the Election Audit will be a report detailing all findings discovered during the assessment. The parties agree that the report is provided AS IS, without any promise for any expected results. Additional artifacts as collected during the work will also be provided, as outlined within the scoping details.

This final report will include:

- An executive summary outlining the overall results of the audit from the various phases;
- A methodology section outlining in detail the methodology and techniques utilized to capture and validate the results;
- Tables, charts, and other data representing the findings of the data;
- Appendices or attached files demonstrating all evidence utilized to come to the outlined conclusions (if applicable); and
- Recommendations on how to prevent any detected weaknesses from being a problem in future elections (if applicable).

In addition to the report, various anticipated artifacts for public consumption will be generated over the course of this work, as outlined under the "Scope of Work." Client will determine in its sole and unlimited discretion whether, when, and how the Contractor should release those resources to the public. This will include all videos, ballot images, and other data.

## **8 COMPLETION CRITERIA**

---

Contractor shall have fulfilled its obligations when any one of the following first occurs:

- Contractor accomplishes the Contractor activities described within this Statement of Work, including delivery to Client of the materials listed in the Section entitled "Deliverable Materials," and Client accepts such activities and materials without unreasonable objections; or
- If Client does not object or does not respond to Contractor within seven (7) business days from the date that the deliverables have been delivered by Contractor to Client, such failure to respond shall be deemed acceptance by Client.

## 9 TERM / PROJECT SCHEDULE / LOCATION

The following table outlines the expected duration of the various proposed work outlined within the Agreement. Work will commence on a date mutually agreeable to both Contractor and Client according to a schedule which is outlined via email.

Each phase outlined below can be conducted simultaneously, with the exception of the Reported Results phase which must be completed at the end. Roughly an additional week of time at the conclusion of all phases is needed to complete and finalize reporting. Lead times before a phase can start as well as their duration can be found below. Faster lead times can potentially be accommodated on a case-by-case basis.

Service Name	Required Notice / Lead Time	Est. Duration in Days	Additional Details / Location
Registration and Votes Cast Phase	1 Week	20	This work will be done remotely.
Vote Count & Tally Phase	2-3 Weeks	20*	The entire time will be onsite at the location designated by the Client.  Access will be required 4 days before the start to setup the space.  *Race recounts as outlined in 5.2.2 may require the timeline to be extended beyond the listed days.
Electronic Voting System Phase	1-2 Weeks	35	It is estimated that 15 will be onsite. The remainder of the time will be remote.  Review of location setup is requested the week prior to ensure proper workspace.
Reported Results Phase	Completion of Other Phases	5	This phase will be completed offsite.  Final Report Delivered 1 Week After Completion

## 10 FEES / TERMS OF PAYMENT

The following table outlines the costs associated with the proposed work. A third of the fees will be due at the execution of the contract. The remaining balance will be payable within 30 days from the completion of the audit.

Selected	Name	Price Each	Total
1	Maricopa County – Full Audit	\$150,000	\$150,000.00
		<b>Total:</b>	<b>\$150,000.00</b>

## 11 SIGNATURE & ACKNOWLEDGEMENT

THE PARTIES ACKNOWLEDGE THAT THEY HAVE READ THIS STATEMENT OF WORK, UNDERSTAND IT, AND AGREE TO BE BOUND BY ITS TERMS AND CONDITIONS. FURTHER, THE PARTIES AGREE THAT THE COMPLETE AND EXCLUSIVE STATEMENT OF THE AGREEMENT BETWEEN THE PARTIES RELATING TO THIS SUBJECT SHALL CONSIST OF 1) THIS STATEMENT OF WORK, 2) ITS SCHEDULES, AND 3) THE AGREEMENT (INCLUDING THE EXHIBITS THERETO), INCLUDING THOSE AMENDMENTS MADE EFFECTIVE BY THE PARTIES IN THE FUTURE. THIS STATEMENT OF THE AGREEMENT BETWEEN THE PARTIES SUPERSEDES ALL PROPOSALS OR OTHER PRIOR AGREEMENTS, ORAL OR WRITTEN, AND ALL OTHER COMMUNICATIONS BETWEEN THE PARTIES RELATING TO THE SUBJECT DESCRIBED HEREIN.

IN WITNESS WHEREOF, the parties hereto have caused this Statement of Work to be effective as of the day, month and year written above.

SUPERIOR COURT OF ARIZONA  
MARICOPA COUNTY

CV 2021-008265

10/14/2021

HONORABLE MICHAEL W. KEMP

CLERK OF THE COURT

A. Meza

Deputy

AMERICAN OVERSIGHT

ROOPALI HARDIN DESAI

v.

KAREN FANN, et al.

THOMAS J. BASILE

KORY A LANGHOFER  
KEITH BEAUCHAMP  
DAVID ANDREW GAONA  
COURT ADMIN-CIVIL-ARB DESK  
DOCKET-CIVIL-CCC  
JUDGE KEMP

MINUTE ENTRY

The Court has reviewed Plaintiff American Oversight's ("AO") Motion to Compel Documents Withheld on Legislative Privilege Grounds, Senate Defendants' Response and Plaintiff's Reply. The Court heard oral argument on October 7, 2021. The Court will hold in abeyance, pursuant to agreement by the parties, the issue of an *in-camera* inspection. The Court will also not address the issue of the sufficiency of the privilege log at this time since this ruling will substantially alter the parameters and scope of the privilege log.

This case involves the disclosure of public records possessed by Senate Defendants relating to an audit of Maricopa County's 2020 election results. This Court ruled on August 2, 2021, that legislative immunity did not apply to the documents requested by AO that have a "substantial nexus" to the audit and that the documents were public records which must be disclosed immediately. The Court of Appeals affirmed this Court's ruling, *Fann v. Kemp*, No. 1 CA-SA 21-0141 (August 19, 2021), and the Supreme Court declined to accept jurisdiction to

SUPERIOR COURT OF ARIZONA  
MARICOPA COUNTY

CV 2021-008265

10/13/2021

review the Court of Appeals' ruling. AO then filed a motion to compel any documents withheld on the basis of legislative privilege.

AO seeks the records on the basis that the Senate Defendants' claim of legislative privilege is too broad and not applicable, that the audit was an administrative act and not a legislative act, and that Senate Defendants have waived the privilege. AO also raised the issues of an *in camera* inspection by the Court and the sufficiency of the privilege log.

I. **Legislative Privilege**

Legislative immunity bars criminal and civil liability for legislative acts, and includes a testimonial and an evidentiary privilege. *Ariz. Indep. Redistricting Comm'n v. Fields*, 206 Ariz. 130, 137 (App. 2003). "Legislative privilege" stems from the doctrine of legislative immunity, which in turn springs from common law and is embodied in the Speech or Debate Clause of the United States Constitution. *Bogan v. Scott-Harris*, 523 U.S. 44, 48-49 (1998). The Clause establishes a privilege that protects members of Congress from being compelled to testify or produce evidence regarding their legislative activities. *United States v. Rayburn House Office Bldg., Room 2113, Washington, D.C.*, 497 F.3d 654, 660 (D.C. Cir. 2007). Constitutional, common law, and statutory privileges are narrowly construed since they are in derogation of the search for truth. *United States v. Nixon*, 418 U.S. 683, 709-10 (1974). Sweeping assertions of legislative privilege are disfavored and the shield extends only as far as necessary to preserve the integrity of the legislative process. *United States v. Brewster*, 408 U.S. 501 (1972). The burden of establishing that a matter is privileged is upon the party claiming the privilege. *United States v. Menendez*, 831 F.3d 155, 165 (3<sup>rd</sup> Cir. 2016). The party opposing disclosure has the burden of establishing the existence of the privilege. *Clements v. Bernini*, 249 Ariz. 434, ¶ 8 (2020). Whether legislative immunity applies is a legal question for the court. *Green Acres Trust v. Landan*, 141 Ariz. 609, 613 (1984). The Speech or Debate Clause is deceptively simple, and the application of this complicated privilege is indeed difficult especially in light of the unique facts in this case.

II. **Scope of Legislative Privilege**

The legislative privilege extends to matters that are an integral part of the deliberative and communicative processes relating to proposed legislation or other matters placed within the jurisdiction of the legislature and when necessary to prevent indirect impairment of such deliberations. *Fields*, 206 Ariz. at 137, ¶ 19. The privilege is not intended to protect legislators'

SUPERIOR COURT OF ARIZONA  
MARICOPA COUNTY

CV 2021-008265

10/13/2021

individual interests, but to support the rights of the people, by enabling their representatives to execute the functions of their office without fear of prosecutions, civil or criminal. *Id.* at 136, ¶ 17. The privilege does not cloak all things in any way related to the legislative process, including legislators' political or administrative acts. *Id.* at ¶ 18. Only those acts done in the course of the process of enacting legislation are protected. *Steiger v. Superior Ct. for Maricopa Cty.*, 112 Ariz. 1, 3 (1975); and *Brewster*, 408 U.S. at 507 (1972). The Public Records Law ("PRL") outlined in A.R.S. § 39-121 establishes a strong policy of access and disclosure, *Carlson v. Pima County*, 141 Ariz. 187, 190-91 (1984), and "public records" are defined broadly and create a presumption of access to those records so that the public may monitor the performance of public officials. *Lake v. City of Phoenix*, 222 Ariz. 547, 549 (2009). The Court's overriding concern in weighing against the assertion of a privilege is the public's interest in access to information.

Here, Senate Defendants' position is clearly overbroad. Nearly every communication between or among Defendant Senator Karen Fann, Defendant Senator Warren Peterson, Senate Liaison Ken Bennett and/or Senate Liaison Randy Pullen relating to the audit have been withheld on the basis of legislative privilege. The privilege is also used to shield communications with anyone associated with Cyber Ninja, Inc. ("CNI") or the various subvendors.

The Court of Appeals rejected Senate Defendants categorical legislative immunity defense and found no error in this Court's determination that the requested documents are public records that must be disclosed and that Senate Defendants were not protected from being sued on the basis of legislative immunity. *Fann v. Kemp*, No. 1 CA-SA 21-0141 Mem. Dec. at 9 (August 19, 2021). The Court of Appeals affirmed this Court's finding that the legislature is not afforded a blanket exemption from compliance with the PRL. *Fann v. Kemp*, Mem. Dec. at 6.

Legislative privilege is narrower than legislative immunity and this Court again rejects the blanket exemption approach taken by Senate Defendants. This is the law of the case. Although documents can be withheld on the grounds of confidentiality, privacy or the best interests of the State if these interests outweigh the public's right to access the records, *Scottsdale Unified Sch. Dist. No. 48 of Maricopa County v. KPNX Broad. Co.*, 191 Ariz. 297, 300 ¶ 9 (1998), it is unclear from the privilege log that documents are being withheld on any of these grounds. The Court rejects Senate Defendants' claims for legislative privilege for a number of reasons.

SUPERIOR COURT OF ARIZONA  
MARICOPA COUNTY

CV 2021-008265

10/13/2021

First, communications regarding this audit are not an integral part of deliberations or communications regarding proposed legislation. There is no proposed legislation pending that the Court is aware of. Under such an expansive view there are few activities in which a legislator engages that could not be somehow related to the legislative process and the privilege does not extend to all things in any way related to the legislative process. *Steiger*, 112 Ariz. at 4. The audit was not done in the course of the process of enacting legislation, *Steiger*, 112 Ariz. at 3, and do not bear the hallmarks of traditional legislation. *Montgomery v. Mathis*, 231 Ariz. 103, 123, ¶ 79 (App. 2012). In *Mathis*, the Court of Appeals found that whether to hire a mapping consultant and whom they hire are discretionary decisions that may be related to the legislative process, but they do not reflect *policymaking* decisions. *Id.* (emphasis in original). Here, who hired CNI, why CNI was hired and how much they were paid is analogous to the situation in *Mathis*. It appears, based upon representations made to the Court, that Senate Defendants are not asserting the privilege for records concerning the selection of audit personnel or vendors and the terms of their contracts.

Further, disclosure of the documents with a substantial nexus to the audit would not impair the deliberative legislative process. Again, there is no pending legislation upon which to deliberate and therefore no deliberative process, no draft legislation and the audit is not a traditional lawmaking function. CNI did not and does not craft legislation. Their records are not an integral part of the deliberative or communicative processes with respect to the consideration and passage or rejection of proposed legislation. *Gravel v. United States*, 408 U.S. 606, 625 (1972). What is “integral” to the legislative process must be weighed against the strong policy favoring public disclosure. Senate Defendants have failed to show how disclosure of documents and communications regarding the audit would result in any impairment of future legislative deliberations. Disclosure would serve the public interest of transparency, satisfy the policy of disclosure, and would not chill deliberations on future legislation relating to this audit or any other proposed legislation in the future.

Second, Senate Defendants do not face civil or criminal prosecution. This is not a case involving a criminal investigation of any legislator or a defamation action or an otherwise civil liability action. This is a case about access to and disclosure of public records produced by third-party vendors hired by the Senate. There simply is no civil or criminal liability at stake in this case since this case is solely about disclosure. The only potential penalties would ensue after a contempt finding for failing to abide by lawful court orders. AO’s Amended Complaint does not seek a financial award.

SUPERIOR COURT OF ARIZONA  
MARICOPA COUNTY

CV 2021-008265

10/13/2021

Third, the Court rejects Senate Defendants' position that factual documents and communications are covered. This is clearly a bridge too far. Factual communications or records relating to procedures, protocols or practices relating to the audit, as well as findings and conclusions, are not privileged. As will be outlined later, Senate Defendants clearly waived the privilege when it produced a final report on September 24, 2021. Even without a waiver, that factual information has no basis in law to be covered by the privilege.

Finally, the Court agrees that the privilege potentially applies to vendors, consultants, legislative aides and independent contractors if their activities would be privileged legislative conduct if personally performed by the legislator. *Fields*, 206 Ariz. at 140, ¶ 23. However, as outlined above, the Court has found that the privilege asserted by legislators here does not apply except for the narrow exceptions based upon confidentiality, privacy or the best interests of the State if those interests outweigh the public's right to access those records.

The State legislative privilege is a qualified one when a plaintiff proceeds against the State and seeks evidence to vindicate important public rights guaranteed by federal law. *Bethune-Hill v. Va. State Bd. Of Elections*, 114 F. Supp. 3d 323, 336 (E.D. Va. 2015). Whether privileged material must be disclosed is determined by balancing the legislator's interest in non-disclosure with the movant's interest in obtaining the material. *In re Grand Jury*, 821 F.2d 946, 957 (3<sup>rd</sup> Cir. 1987).

AO's interest on behalf of the public at large substantially outweighs the Senate Defendants' interest in non-disclosure. Overcoming the narrow privilege will have little if any chilling impact on future deliberations and communications and must give way to the overwhelming public interest and need for transparency. A five-factor balancing test was considered in *Bethune-Hill*, 114 F. Supp. 3d at 336, namely (1) the relevance of the evidence sought to be protected; (2) the availability of other evidence; (3) the seriousness of the litigation and the issues involved; (4) the role of government in the litigation; and (5) the purposes of the privilege.

AO seeks public disclosure of documents and information generated by an audit of the 2020 election in Maricopa County. The evidence could not be more relevant. The very essence of this case is public disclosure of the documents, no more. The legislators and the Senate are not being sued for defamation or civil damages. AO is seeking disclosure of information that is

SUPERIOR COURT OF ARIZONA  
MARICOPA COUNTY

CV 2021-008265

10/13/2021

central and integral to the audit process itself. The information sought is not only directly relevant, it is the only relevant evidence.

Second, there is other available evidence that has been produced, namely the three-volume final report. But the salient question is the basis for the conclusions and findings outlined in the report. The public has a right to know the basis for these conclusions and findings and to challenge and scrutinize those findings. The public has a right to know how the audit was done, who paid for it and how much was paid. The public also has a right to know the identity of any political organizations who financed the audit.

Third, it is hard to imagine more serious litigation than the disclosure of documents underlying an audit of the election of the President of the United States and a United States Senator in Maricopa County. This goes to the heart of our democracy and this audit was done in response to allegations of fraud and corruption. The right to vote is the most important constitutional right in our democracy and this audit challenged the fairness and accuracy of the vote in Maricopa County's 2020 election.

Fourth, a government body (the Arizona Senate) and two Arizona Senators are being sued in order to obtain disclosure of public documents related to an investigation into a countywide election that they authorized, financed (at least to some extent) and controlled. They are not attempting to uphold the validity of any legislation (there currently is no legislation emanating from the report) or protect themselves from criminal or civil liability as outlined above.

Finally, the Court finds no basis that the purpose of the privilege would be compromised by overcoming the privilege. Senate Defendants have not made a showing to persuade this Court that future deliberations on future legislation relating to this case or any other legislation would be compromised or diminished. There would be no unwarranted interference with legislative activity. All five factors strongly favor AO and the privilege must be overcome.

### III. Legislative vs. Administrative Acts

The privilege is intended to enable legislators to execute their office without fear of prosecutions, civil or criminal, *Fields*, 206 Ariz. at 136, ¶ 17, and does not extend to political or administrative tasks. *Steiger*, 112 Ariz. at 3. Senate Defendants argue that the audit was an

SUPERIOR COURT OF ARIZONA  
MARICOPA COUNTY

CV 2021-008265

10/13/2021

investigation of the 2020 Maricopa County ballots for the offices of United States Senate and President of the United States and that investigations can be considered part of the legislative process.

Investigative activity by the legislator can be considered part of the legislator's process and can be shielded by privilege. The privilege can apply to written reports done in a session by one of the legislative members in relation to the business before it. The preparation and release of a report may be privileged if done as a legislative function. *Mesnard v. Campagnolo in and for County of Maricopa*, 251 Ariz. 244, 250 (2021). *Mesnard* involved a civil lawsuit for defamation of a House member and is therefore clearly distinguishable.

The Court is not persuaded that the audit was a purely administrative task. This Court previously found that the audit is an official legislative activity and was conducted pursuant to the Senate's functions as outlined in the Arizona Constitution. *Fann v. Kemp*, 2021 WL 3674157, at 4, ¶ 19. The Court rejects the argument that the privilege does not apply solely on the grounds the audit was merely an administrative task.

IV. **Waiver**

Like all privileges and immunities under Arizona law, legislative privilege can be waived by legislators and should be narrowly construed. *Fields*, 206 Ariz. at 144, ¶ 48; and *Doe ex rel. Doe v. State*, 200 Ariz. 174, 176, ¶ 4 (2001). The legislative privilege is a personal one and may be waived or asserted by each individual legislator. *Gravel*, 408 U.S. at 622 n.13; and *Marylanders for Fair Representation, Inc. v. Schaefer*, 144 F.R.D. 292, 298 (D. Md. 1992). Waiver of the privilege need not be explicit, but may occur either in the course of the litigation when a party testifies as to otherwise privileged matters, or when purportedly privileged communications are shared with outsiders. *Favors v. Cuomo*, 285 F.R.D. 187, 211-12 (E.D.N.Y. 2012). As with other waivers, legislators can waive the privilege concerning a subject by the express, voluntary, or intentional relinquishment of a known right or by such conduct as warrants an inference of such an intentional relinquishment established by evidence of acts inconsistent with an intent to assert the right. *Am. Cont'l Life Ins. Co. v. Ranier Constr. Co.*, 125 Ariz. 53, 55 (1980).

Here, Senate Defendants have clearly and expressly waived legislative immunity as it relates to this audit by making numerous public statements to traditional media and social media

SUPERIOR COURT OF ARIZONA  
MARICOPA COUNTY

CV 2021-008265

10/13/2021

about the audit and its findings and releasing selective documents about the audit to the public. (Amended Compl., at 102). This alone supports a finding of waiver. Significantly, Senate Defendants publicly issued a three-volume final report (some 200 pages) containing their final hand count, as well as findings and conclusions regarding questions and concerns over the 2020 Maricopa County election results. Senate Defendants then held a “public hearing” that lasted more than 3 hours on September 24, 2021 to outline their findings and conclusions. It is hard to conceive of a more sweeping and direct waiver of the privilege. It is akin to a defendant testifying in a criminal trial and asserting his Fifth Amendment rights by answering only the questions he wants to answer. He can’t have it both ways. He either answers all questions or his testimony is stricken. Senate Defendants cannot publicly release numerous public statements about the audit, release a comprehensive report about the audit, and then refuse to disclose documents and communications that are central and integral to the findings and conclusions of that report. CNI and its subvendors have also made numerous public statements about the audit, many of them directly challenged by the Maricopa County Board of Supervisors and Maricopa County Recorder.

Political acts, like making statements outside the legislative body or issuing news releases, are not covered by legislative immunity. *Mesnard*, 251 Ariz. 244, 250, ¶ 16. Both legislator Defendants and their liaisons, CNI and others have made numerous public statements about the audit. The Speech and Debate Clause does not apply to these activities. Senate Defendants did not conduct or even oversee the audit. The public has a right to scrutinize these statements by comparing them to documents and communications underlying the final report and its findings and conclusions. The “hearing” in the Senate chambers on September 24 was much more akin to a press conference. This clearly was not a traditional legislative proceeding. Witnesses were not sworn and questioned, there was no debate or deliberating, and the two Senate Defendants were the only legislators formally present. This was a political act not a legislative act. These activities, making statements outside the legislative body, issuing press releases and then publicly disclosing the final report are political exercises.

V. **Relevant Case Law**

The Court is guided by general principles and some of the issues raised by the pleadings are of first impression. The cases that the parties and this Court have relied upon provide limited guidance based upon general principles. Most of the federal cases addressing these issues involve the federal Freedom of Information Act “(FOIA)”. Congress is not bound by FOIA but

SUPERIOR COURT OF ARIZONA  
MARICOPA COUNTY

CV 2021-008265

10/13/2021

Arizona's PRL applies to the Arizona Legislature. This clearly distinguishes much of the federal case law. Even the most analogous Arizona cases are at least somewhat factually distinguishable.

*Mesnard* involved a former legislator suing a current legislator for defamation. The Arizona Supreme Court held that the release of an investigative report about the former legislator to the House and the public was a legislative function protected by absolute legislative immunity. *Mesnard*, 251 Ariz. at 251, ¶ 21. However, the Court also affirmed the trial court's denial of a motion to dismiss based upon the fact that Mesnard issued a news release which was a political act and not a legislative function and therefore not covered by legislative immunity. *Id.* at 252, ¶ 28. This case is about disclosure of public records, not defamation, although the Court's finding that Senate Defendants' press releases and public statements are political acts is consistent with the *Mesnard* holding.

The *Steiger* case involved a congressman who asserted the privilege to prevent an aide from answering questions at a deposition in a civil matter involving allegations that the defendant congressman conspired to damage Plaintiff's business. *Steiger*, 112 Ariz. at 2. The Arizona Supreme Court affirmed the trial court's denial of the invocation of the privilege. *Id.* at 4. The fact that the congressman was conducting an investigation that could have resulted in future legislation was not persuasive since the investigation was not related to any pending congressional inquiry or legislation. The Arizona Supreme Court found the congressman had not met his burden. *Id.* at 3. There is no pending legislative inquiry or legislation although legislation could someday result from this audit. Senate Defendants have not met their burden.

The *Mathis* case involved an Independent Redistricting Commission (IRC) that asserted legislative privilege for deliberations concerning the hiring of a particular mapping consultant. The Court of Appeals found decisions regarding whether to hire a consultant and whom to hire all discretionary but not policymaking decisions. *Mathis*, 231 Ariz. At 123, ¶ 79. The discretionary decision to hire a mapping consultant cannot be said to have the "force of law" with "prospective applications." *Id.* at ¶ 80, citing *Fields*, 206 Ariz. at 138, ¶ 23. This audit likewise did not have the force of law with prospective applications, and did not bear the hallmarks of traditional legislative process.

Finally, *Fields* was in the context of discovery generated by consultants later designated as experts in a civil action challenging the fairness of making legislative districts by an IRC. A

SUPERIOR COURT OF ARIZONA  
MARICOPA COUNTY

CV 2021-008265

10/13/2021

citizens group sought to compel the production of documents exchanged between IRC, its consultants and expert witnesses. The Court of Appeals held that a legislator may assert legislative privilege to shield from inquiry the acts of independent contractors retained by that legislator that would be privileged legislative conduct if personally performed by the legislator. *Fields*, 206 Ariz. at 140, ¶ 23. However, the Court of Appeals also held that the privilege had been waived when the consultants were designated as experts subject to civil discovery Rule 26(b)(4), Ariz. R. Civ. P. *Id.* at 143, ¶ 44. The Court also analogized the waiver of the privilege attached to the consultant/expert to an IRC Commissioner waiving the privilege concerning a subject by agreeing to testify about it. *Id.* at 144, ¶ 48. Here, the Court's finding of a waiver is further supported by Senate Defendants holding public hearings where Senate Defendants, the president of CNI, and other consultants made numerous public statements about the audit.

VI. **Conclusion**

The parties have agreed to hold in abeyance the issue of whether this Court can or should review documents *in camera*. The issue can be raised by either party in the future. The Court also will not address the issue of the sufficiency of the privilege log at this time since this ruling will eliminate most if not all of the entries claiming legislative privilege. AO may again raise this issue depending upon Senate Defendants' compliance with this ruling. This ruling significantly narrows the universe of documents and communications that are permissively privileged.

The legislative privilege does not apply with the exception of documents withheld on grounds of confidentiality, privacy or the best interests of the State if those interests outweigh the public's interest in access to those records. This is narrow indeed and must be specifically outlined in the privilege log. The audit was not an integral part of a deliberative process, the withheld information is not tethered to proposed legislation, and there is no showing that disclosure of the records sought would impair legislative deliberations. There is no deliberative process underway. AO's interest, on behalf of the public at large, significantly outweighs the Senate Defendants' interest in non-disclosure. The audit challenges whether there was an election free of fraud, corruption or incompetence. The stakes could not be higher and transparency, which is at the heart of the PRL, substantially outweighs any concern regarding chilling future legislative deliberations. Arizona public records law creates a presumption requiring the disclosure of public documents. Senate Defendants clearly waived any claim to immunity or privilege. The Motion to Compel is granted with the qualifications outlined in this

SUPERIOR COURT OF ARIZONA  
MARICOPA COUNTY

10/13/2021

opinion. The progress of disclosure will be addressed at the status hearing/return hearing on contempt scheduled for November 2, 2021.
