DEFENDANT'S NAME: THOMAS LEE GUDINAS
DATE OF BIRTH: February 27, 1974
CHRONOLOGICAL AGE: 51 years

CASE NUMBER: 481994-CF-007132-A
DATE OF EVALUATION: May 29, 2025
DATE OF REPORT: May 30, 2025

NEUROPSYCHOLOGICAL EVALUATION REPORT

REASON FOR REFERRAL:

Mr. Thomas Gudinas was referred for a neuropsychological evaluation by his attorneys. The purpose of the evaluation was to gain a greater understanding of his past and present psychological and neuropsychological functioning, to assist in his defense.

Mr. Gudinas was advised of the purpose for the evaluation during the interview. He was told that information he chose to provide during interview, any of his statements or actions, and any other information obtained about him, would not be confidential. Mr. Gudinas indicated that he understood the lack of confidentiality and agreed to proceed with the evaluation.

INFORMATION SOURCES:

Mr. Thomas Gudinas was evaluated at the Florida State Prison for a total of five hours. He was interviewed and administered the following tests:

Delis Kaplan Executive Function System

- Trail Making Test – Conditions 1 – 5

- Verbal Fluency Test

Incomplete Sentences

Kaufman Functional Academic Skills Test

Paragraph Writing

Rey-Osterrieth Complex Figure – Copy, Immediate, and Delayed Recall

Test of Memory Malingering

Wisconsin Card Sorting Test

Other Information came from the following sources:

Background Material – Packet provided by CCRC

Telephone Interview with Ms. Karen Ann Goldthwaite, Mother of Defendant

BACKGROUND INFORMATION:

Mr. Thomas Gudinas was born to Ms. Karen (Goldthwaite) and Mr. Thomas Gudinas Sr. on a Tacoma, Washington Army base. Mother reported having Toxemia prior to his birth and seizures during the delivery. Ms. Goldthwaite reported that after his birth he had too much "blood" in his brain and the doctors had to drain the excess fluid from his head. She also reported additional medical problems in his first six months of life.

The family moved to Massachusetts when Thomas was very young. His parents divorced and he was shuttled between his parents and other family members. Thomas attended public school and was brought to the attention of school staff due to problematic behavior and academic difficulties early on.

Thomas reported a history of physical abuse at the hands of his father, mother, stepfather, and others. He reported a history of sexual abuse from the time he was very young. He was a victim of severe emotional abuse throughout his childhood.

Although therapy and treatment was repeatedly recommended by all those who evaluated Thomas, there was little treatment provided. Thomas was sent from program to program and many different placements, but no long term residential treatment was provided.

BEHAVIORAL OBSERVATIONS:

Mr. Thomas Gudinas presented as a 5 foot 7 inch, 177 pound, right hand dominant male. He was oriented to person, place, time, and situation. There were signs of overt psychotic mentation. He was paranoid and suspicious, especially about people around him at the prison. His thought processes were mixed between rational and irrational.

Mr. Gudinas was depressed, blunted and withdrawn. He expressed feelings of anxiety and worry. Mr. Gudinas reported feeling alone and hopeless, especially since moving to Florida State Prison.

Mr. Gudinas is very concrete and simplistic in his thinking. Many concepts needed additional explanation, elaboration, and repetition so he would understand them.

He readily discussed and presented his elaborate fixed delusion regarding numerical equivalents of letter and word combinations and what they mean to him.

Mr. Gudinas was comfortable and cooperative in the testing situation, he completed the assigned tasks appropriately. His level of motivation was good throughout the evaluation, and he appeared to put forth genuine effort. Rapport was established with the examiner. As a result of his motivation and effort, the results are considered to be a valid indication of his present functioning.

Testing was limited due to time constraints. Additional testing, evaluation, and interview is recommended.

TEST RESULTS:

The Test of Memory Malingering (TOMM), a test of visual recognition memory of everyday objects that is helpful in assessing validity, was administered. On the first trial Mr. Gudinas correctly identified all of the 50 pictures. On the second trial, he correctly pointed out all the pictures. After a delay with interference, he once again identified all the 50 pictures. This is indicative of sincere effort on the part of Mr. Gudinas and rules against malingering.

The Kaufman Functional Academic Skills Test, a measure of academic skills that are used on an everyday basis, was administered. Mr. Gudinas obtained the following scores. On the Arithmetic subtest he obtained a Standard Score of 78, 7th percentile, well below average. Thomas was able to tell time, count change, and solve simple problems. When the problems involved fractions, division, or more complex multiplication, he was unable to figure out the correct answer.

On the Reading subtest, he obtained a Standard Score of 78, 7th percentile, well below average. Thomas was able to read and recognize common signs, follow commands, and understand basic instructions. When he had to read more extensively, figure out abbreviations, or greater comprehension was involved, he was unable to complete the task.

Executive functioning, or the processes responsible for guiding, directing, and managing cognitive, emotional, and behavioral functions was assessed and revealed the following:

The Wisconsin Card Sorting Test, a measure which assesses the ability to form abstract concepts, to maintain and to shift set, and to utilize feedback, was administered. Mr. Gudinas had great difficulty with this test. He was only able to complete two categories, mildly impaired range, and committed 68 perseverative errors, severely impaired range of functioning. Mr. Gudinas was unable to utilize feedback to try and solve the problem, going back over and over again to an approach that he was told was incorrect.

The Delis Kaplan Executive Function System Verbal Fluency Test, a measure of letter fluency, category fluency, and category switching was administered. Letter Fluency was in the average range. Category fluency was in the low average range. Category switching was in the borderline range. When more requirements were imposed on Mr. Gudinas, he had greater difficulty and performed more poorly on the tasks.

The Delis Kaplan Executive Function System Trail Making Test, a measure of one's ability to scan, sequence numbers and letters, and switch between numbers and letters, was administered. Visual scanning was in the borderline range. Motor Speed was above the average range. Number sequencing and letter sequencing were in the average range. Number-Letter Switching was severely impaired. Mr. Gudinas works fast, however, when he had to attend to two different stimuli at the same time, switching between numbers and letters, he was lost, performing in the severely impaired range.

Judgment, reasoning, planning, and decision making are all regulated by executive functioning or frontal lobe abilities. Mr. Gudinas demonstrated significant impairment in these areas. This points to frontal lobe dysfunction.

The Rey-Osterrieth Complex Figure Test, a test of visual constructional ability and visual memory, was administered. On the copy, Mr. Gudinas completed the figure with a perfect score. On the immediate

recall of the figure, he obtained only 12.5 of a possible 36 points, or 35% retention, with memory of the outline of the figure without any of the internal details. On the half hour delayed recall of the figure, he obtained 12 of a possible 36 points, performance within the average range.

SUMMARY & CONCLUSIONS

Mr. Thomas Gudinas was cooperative with the evaluation. Neuropsychological Evaluation results were valid with no indication of faking or malingering.

Mr. Thomas Gudinas has a history of extreme physical, sexual, and emotional abuse, which has caused him to suffer from trauma his entire life.

Mr. Thomas Gudinas' cognitive functioning was in the Low Average to Borderline range.

Mr. Thomas Gudinas' executive functioning was severely impaired. He presented with significant brain impairment and frontal lobe dysfunction.

Mr. Thomas Gudinas has a long history of instability in his education and school failure.

Mr. Thomas Gudinas has a long history of major mental illness continuing to this date. At the present time he is paranoid, suspicious, and has fixed delusions.

Mr. Thomas Gudinas has a long history of institutionalization beginning at a young age, with failure to provide adequate psychological and psychiatric treatment.

Mr. Thomas Gudinas was twenty years old at the time of the commission of the offense. Developmental literature and neuroscience research states that there was a lack of maturity, an undeveloped sense of responsibility, increased vulnerability and susceptibility to outside negative influences in a person that was not fully formed at this age.

Initial findings were presented with the limitation of time constraints. Additional time would allow for more comprehensive testing and interview with Mr. Gudinas, record review, and interview of collateral sources.

APPENDIX B

Appendix B: Writing From Gudinas Depicting Severe Mental Illness

Dear Mr. President Donald Trump, Alarlas

Sir, what I'm about to reveal to you the United States government, should be top secret info. I've shared some of this info. with my appeal attorney's, my name is THOMAS GUAINAS, I reside on Florida's - Death-Row. I'm a true believer in God, I'm Catholic and feel God pointed me in this direction to reveal what I've uncovered recently, a secret system running under the nose of the Government and the reason why I was put on Death-Row. A lot of what I found deals with intelligence and I believe terrorist could be involved in this system as well, on the fraud side of it. I asked my attorney out of Tampa - Florida "ALI SHAKOOR" to file a motion for a full investigation, and to file this as newly discovered evidence - as it is and to file for a new trial and my out-right release from Custody of D.O.C. into public life, as I'm being held here on a secret system of fraud, conspiracy, all my rights have been violated because of this newly discovered evidence. I really can't explain much on paper, of what I found, I need experts in the field of decoding, which I asked my attorney to provide as well. My case was circumstantial and no eye witness to any crime, I knew something was wrong when I first was arrested and the new evidence proves in fact, that the system was pre-planned to put me in the area, where these crimes were committed, so I could take the fall for other's actions involved with this fraud. I wasn't even born yet while this info. existed. But wearing my name I ended up being a "vehicle" in this fraud. On top of that there is info. in this system I don't know how to read, but experts could - it could take years of investigation, to try to figure out a small portion of what I already uncovered. I also believe our government is at "risk" of being bugged - through "words, letters and names and numbers - systems. →

"LEGAL MAIL"

NEWLY DISCOVERED EVIDENCE

I believe most of us are forced to live in it or with it in many ways - Some are good ways and some are terrible and ILLEGAL!!

Enclosed: You'll find what I have already gave and tried to explain to my current attorney - A Letter and Exhibits 1-20 showing some of the things I found and tried to formulate for my attorney to the best of my ability. I DID Let my attorney know, this information I gave him is "Dangerous" and he agreed, because knowing this - could alert terrorists to take action under a disguise etc., All this info. I uncovered, I realize goes deeper than what I'm explaining and what I'm explaining ought to Scare people. This is of "great public importance" but may need to be kept secret until a full investigation.

The importance of this info, has far reaching effects, I believe it's a world-wide system, with secret passages within the info. This system could be the reason, why someone tried to shoot you and you should know everything about this system - It's not bright at all Mr. President, that decent people can get railroaded by this Secret system. Isn't strange that I found my name in the victim's name, for the crimes I was charged with, you won't believe all the other things I uncovered. This is all an invasion of privacy and much more. A violation of all my rights as a natural-born U.S. citizen. The Florida Governor is a Catholic, and no true Catholic would ever kill or execute someone in the name of Jesus or any other name "with the info. of this Secret system of fraud and device work - without a full investigation and where the public has the right to see the full investigation "report" because average citizen's lives are at risk under this Secret system.

Sir, please give the Florida governor a call on these matters. Once a full investigation is done by attorneys and the government, I feel it's the government's duty "to pardon me of all charges" And I hope you agree Mr. President in light of the evidence. This is a very serious matter, Thank you for your time and help.

NEWLY DISCOVERED EVIDENCE

I'm Sending a copy to All parties involved and All major media and Front-line on P.B.S. who study Conspiracies. Separately
RECENTLY I came to study words,
AND Found a Secret system, Connected with
why I was persued and charged with false crimes.
I'm going to LAY DOWN, step by step several patterns
to show you real facts of newly discovered evidence -
I'd like for everything I write about these facts to be viewed
by all major media and to be public record. I cared about my
life and well so much, something inside me my spirit, told me
to study these words the way I did. I started out studying the
calendar and symbols on the clock - using numbers and letters
and numbers don't lie - unless you change the position of them. -
(FIRST) I'm to let you know I found my name in several businesses
and other places around the world - hidden in many different words
and names - each letter has a number - I also found my name "last"
which is very rare in the word "D.N.A" I want to show you -
Exhibit #1 to show you how I do every word or name to get
the information of all these facts under this secret system. I allege
I didn't know any of these facts until recently nor do I believe that
my trial judges or prosecutor or Attorneys - were aware of all these facts
of newly discovered evidence - because I don't believe they are the ones who
actually set this system up - it's much bigger than that. There's a -
conspiracy and the true facts are un-covered "prove there is
a bigger conspiracy not only to my case, but a way of life
for some people. I'm send a copy to my Appeal attorney and
other parties in the near future, so I can have them file a motion
for my release, either at the trial court level or straight to the
United States Supreme Court - this could raise a conflict
in filing - where some of this ongoing discovery puts these
organizations of LAW in the middle of the evidence discovery
so, there may have to be a special hearing to ensure fairness
and due-process of my rights in presented all the facts
that have now been gathered and any other future facts
gathered in this discovery. This is of great public importance
and the courts should take great interest, in releasing me to my
family, with my fact findings. Sincerely Thomas A. Maden.

NEWLY Discovered Evidence

I Alleged: →

Exhibit #17

note: After sharing this newly discovered information with the clemency Commission I feel they may want to sign my warrant to have me executed because of these facts secretly hidden we uncovered recommended to the Governor. This information we uncovered is so dangerous, having the information could put anyone's life in Jeopardy. This info. shows they would be executing an innocent person under a conspiracy plot by a system of individuals that knows how to work this un-lawful system, either way a recommendation would be illegal unless they gave me a full pardon - and a warrant would be illegal due to the nature and fraud we been un-lawfully arrested under. A full investigation needs to ensue into these facts we uncovered. Thank you!
